swimming pool ceiling system

A superior alternative to traditional and suspended ceilings

A beautiful and practical vapour barrier for swimming pools and spas

Pristine Stretch Ceiling systems are ideal for private swimming pools & spas, health & fitness clubs and local authority sports & leisure centres. They are also suitable for changing rooms, steam rooms, foyers and gyms etc.

Dollan Aquacentre - Glasgow

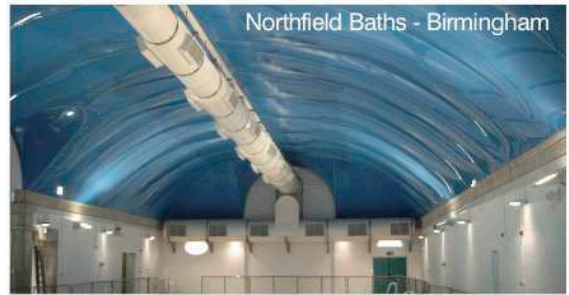

JJB Sports - Gloucester

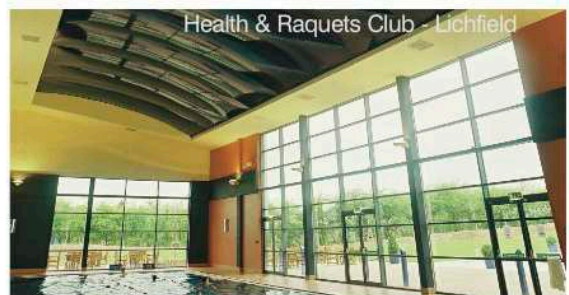

Esporta Health Club - Richmond

Northfield Baths - Birmingham

Health & Raquets Club - Lichfield

BENEFITS OF THE PRISTINE SWIMMING POOL CEILING

- Beautiful results with a variety of colours in Matt, Satin & Gloss finishes.
- Curved ceilings are possible including circles, domes, vaults and waves.
- Maintenance free, as the system will never need painting or re-decorating.
- Economical due to covering properties, speed of installation and low maintenance costs.
- Quick, clean installation with no mess.
- Vapour proof - assessed to BS 3177.
- Unaffected by condensation, moisture, mildew or chlorine.
- Assessed to Class '0' fire rating.
- The system will never crack, flake or peel.
- Washable and easy to clean.
- Hides ugly ceilings, bulkheads, pipework etc.
- 10 year manufacturer's guarantee.

It's time to join the national companies specifying Pristine Stretch Ceiling Systems and enjoy the benefits of the highest quality with the lowest overheads.

pristine swimming pool ceiling system

Pristine stretch ceilings are an excellent alternative to traditional swimming pool ceilings. The system is assessed to a Class '0' fire rating (European Reaction to Fire Classification Report in accordance with EN 13501 - 1 : 2002) and tested for water vapour resistivity to BS3177. Pristine Stretch Ceilings are unaffected by condensation problems.

Aesthetically Beautiful

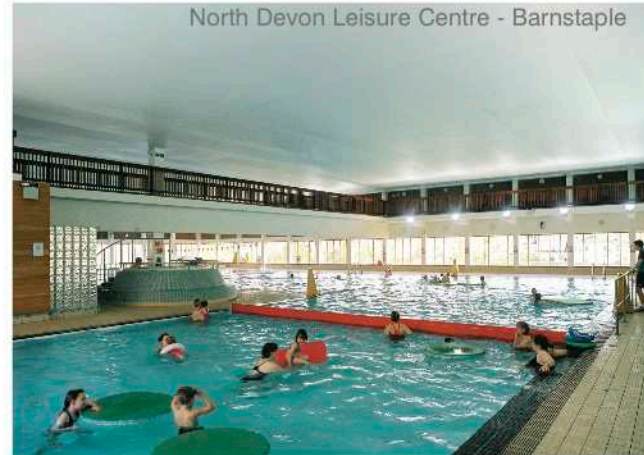

A vast number of colours are available in Matt, Satin and Gloss finishes. Due to the membranes strength and flexibility ceilings can be shaped into curves, waves, arches, domes and vaults. Any lighting, vents or ducts are easily incorporated into the system. Pristine also supply and install fibre optics for stunning lighting effects.

Installation

Our own professionally trained ceiling fitters carry out the installation. The procedure is very quick and clean, with no dust or mess. Priming, painting or drying time is not required.

MAINTENANCE FREE SYSTEM

A maintenance free system is a major cost advantage. Re-painting a swimming pool ceiling can involve emptying the pool, erecting scaffolding or towers, carrying out the refurbishments, dismantling the scaffolding and re-filling the pool. This is time consuming, inconvenient and can cost thousands of pounds. Revenue would be lost whilst the pool is closed. ***With Pristine's Swimming Pool Ceilings these problems never occur, as the system will never need re-decorating.*** Re-treating the system with specialist coatings is not required unlike timber or tiled ceilings.

North Devon Leisure Centre - Barnstaple

Sky Ceiling, Private Pool - Kent
